E: aozkesek@gmail.com

Summary

I am 25+ years experienced Software Developer/Programmer with a Bachelor of Technology in Computer Sciences Engineering. I developed, planned and designed various software for Contact Centre, ATM Management, Document Management and Workflow Management. I worked 16 years in Banking and Financial sector in Istanbul-Turkey. Now, I would like to take job things easy again, and I am seeking a mid-level Java Programmer role in London where I can continue to improve myself first in English Language and Culture then programming.

Experience

Oct 2016 – date	Istanbul, London	Freelancer

- Chose voluntarily to be unemployed and focused myself,

- Self studying Java EE, AWS, Document DB/NoSQL
